David J. Dradley, Clerk of Court

Case 4:17-cv-03618

Sept 14, 2018

Plaintiff

Amy Charron

Civil Rights & Relations

Honorable Judge David Hitner,

Plaintiff, Amy Charron, has met once again with internal Affairs on Sept 14, 2018. Plaintiff was given more sworn affidavits regarding numerous retaliations and police misconducts that led to her having to felocate once again. Plaintiff is attaching proof of many crimes that clearly no investigation or arrest were made. Despite, numerous officers told plaintiff that

a Detective would investigate major theft and assaults. Plaintiff was treated as a criminal herself. Despite numerous crimes were committed caught on videos and cameras, no arrest were made.

In no way is Plaintiff at fault for missing her last deadline.

Obstruction of justice and her evidence constantly being robbed, Plaintiff was left with no way to file the evidence needed to plea her case.

Plaintiff moved to a home Texas with her fiance, Johnny White, where more relations took place. Plaintiff believes

She is a targeted individual over the Trust case. Numerous officers told Plaintiff her actions against officer Trust had her backstated from getting the lawful help she deserves. As a law abiding citizen Plaintiff should not have had to live in fear of her life and virtually no protection from police officers. Despite all Plaintiff's efforts to seek justice and help she was left homeless to live on the streets. This is after she was assured protection by Sargent Siskous with internal affairs. Today, Sargent Vaughn explained to Plaintiff

and Johnny White at internal affairs approximately about 3pm on Sept 14 of new information. Sargent

Vausn explains Affidavit's need to be done over present police misconducts, and retaliations. Plaintiff

evidence that

was told Sargent Seabous who was assigned to her case is no longer with internal affairs. Plaintiff is informed Sargent Seabous has been

put to another division quite some time ago. Plaintiff was not informed this when numerous calls to internal affairs were made by witnesses and herself

Plaintiff believes there is

massive corruption taken place for her publicity including radio interviews over her civil case.

Plaintiff has worked very hard gathering evidence that keeps getting stolen. No matter where Plaintiff goes for safety she keeps getting targeted. Last summer Plaintiff was followed and threatened that they are wearing wigs and hired to destroy our Plaintiff's case. These threats were proven by pictures proving they knew her location. Plaintiff came back to Houston Sept 12, 2018 in fear of her safety.

Plaintiff is here after
the law library where
computers were not working.
Over 25 pages of Plaintiff's motion
could not be printed out. Therefore,
Plaintiff needs more time to file appropriate
Thank you,

Amy Channon

Note:
Plaintiff was very rushed
therefor this was not how
she wanted to plea her
case.
