Motion relief request to file amendments amended complaint against defendants naming certain parties left off due to retaliation and misrepresentation illegal harmful dereliction negligent misrepresentation actually needing investigation which I will be initiating federally in New Jersey and Texas as to Lee Merritt esq given timings I would hope this federal was not engaged in needing to move procedures all together as recordings show a definite orchestration to delay proceedings block not enter motions and transcribed evidence into federal records I would have duly introduced myself had another lawyer firm not played games with recordings proof of crimes atrocities committed by defendants proving beyond any reasonable doubts clear and convincing standards and threshold far surpassed as police officers act like gang members fully caught in Rico orchestration to threaten intimidate control the voices of all war crimes against Shayling Kenworthy political activists fighting to keep her our kind familia from the impending cages ushered thru hate exacted just like in Lyndhurst Nj to a family simple wanting truth freedom the American pursuit of justice freedom and happiness that which is being falsely advertised ie federal civil rights arguments to citizenship asylum discrimination I'm sure anyone with an actual integral bone and legal ease can see where we are heading here instead of tea it will be the iPhones in the Hudson and every close enough rivers to the factories since some forms of evolution progress have occurred but we can Catch the boats in International waters to make this a world iPhone/fuxkoff Boston world tea party declarations of war revolution conception of an actual bill of rights and way to not hide run with federal judges complicit criminal participation to help keep your lifestyles and rapist like Trump walking free paying off families when caught with children. As his pals and him are allllllllll caught in including the conception of cps to kidnap children families for profit and protection of elitist gain from its owned slaves not monopolies at allllll again I believe and hope you see I'm fully capable to undo it all as it's America at a tipping point needing a full clean house fresh blood please restore rule of law and immediately end the war crimes for profit and protection against humanity as your all fully legally within rights of said bench appointed and capable should you not be willing participants

One party needing to be named is Lyndhurst internal affairs Captain Valente now retired via not obvious corruption and protection of pensions who absolutely should have with Lyndhurst police chief being duly informed passing onto his internal affairs captain like text trails will illustrate weeks before Shaylings murder stated if any of my officers are obstructing justice not arresting Robert Martin my internal affairs and I need to be informed which is what was occurring and full text trails which can be submitted should need be will illustrate that in the full pursuit of justice and Captain Valenters obvious illegal orchestrated dereliction of duty as instructed Rico crimes by his superior also text illustrated by Lyndhurst chief O'Connor his intimation of victims to terrorism O'Connor states he knows Robert can't we handle this a back office way while we still come after your children because of Roberts threats crimes and his officers follow thru with a false arrest that resulted in no prosecution as there was no crime to prosecute and the actual acts of violence against us all were still are being committed by an organized criminal fully illustrated and allowed enterprise as no one to this day has been detained charges and trials initiated bringing any closure or safety to my family

Included is the now transcribed crimes of Robert Martin this clearly illegal activity resubmission of already submitted recorded evidence of Robert Martins terroristic Rico organized criminal activity that was fully aided by Lyndhurst police department with Depps

full assistance as well I again ask the court did they actually review the case fully as required along with submitted evidence and if so why in the world would motions to dismiss be told instructed of opposition when a status hearing rule 16 conference should have absolutely been ordered by the court except for the ongoing discrimination being applied to all pro S.E. litigation currently being blocked and manipulated should higher judges seeing this need verification I have 5 cases to fully illustrate and given a public announcement seeking others experiencing this illegal activity Dcpp or whatever their illegal Llc acronyms are to come forward as the government is all of sudden going to stop war crimes against humanity once and for illegally aristocratically all you know things abc cbs cnn Shuan king elitist can do to begin fully illustrating the false illegal criminal activity of all courts of the land we can actually begin to restore justice taking our country and freedom back from criminal enterprises into the people's hands alllllll peoples hands

Welcome to the land of the opportunities stolen where the lords still wish to sleep with your spouse daughters when hopefully of age as these animals have illustrated via these pleadings

When you do not cooperate and legally assert your rights with a lawyer and lawsuit you thinking your good having protection finally help to make arrests for crimes and restore our families civil rights nope federal court protection Zach holzberg nobody cares for truth to be told that's why we buy your silence with illegal federal gag against all constitutional law rights get away with crime for a legal federal payout for silence care when retaliation is in full swing in fact he helped fully opposing counsel and criminals destabilize and attack his clients who gathered recordings literally recorded keep your mouths shut pay rent buy house like the deal we agree upon and during so stay living in my daughters firsthand filth dehumanizing your family while putting your health at risk as the house is a health hazard death trap 2 people died in matter of months Shayling Kenworthy just needing oxygen alive as illustrated on 911 call asking for oxygen and life not to be denied because we did not and would not comply with illegal criminal activity

Now I ask your honor in a term like Robert Martin since these aren't federal rights violations and crimes and my underlying claim may not have merit I ask your honor hypothetically as your honor knows im not a thug gangster who would break the law in this manner but for full protections and rights restoration illustrating my arguments as Robert and illegal criminal Rico pals grant my motions or I'll make your life a living hell and bury you in a grave plot after my federal marshal pals and boys in blue terrorize you your family kill your spouse illegally remove your kids as recorded threats illustrate so now in these terms your honor do you understand the irreparable harm your honor is allowing to continue being inflicted upon my family again as if your blind deaf and dumb needing removal and retirement thank god im not Robert emphasizing that grave as your retiring place as Shayling Kenworthy endured unless you also share Robert and our illegal war time presidents state of mind that animals such as my wife and Bothem don't belong in their living rooms in their country I'm sorry your country without your full approvals and of course our compliance's to your holynesses commands including being raped assaulted violated them told keep your mouths shut so assailants may continue their life styles and crimes we will get paid cause money is more important now in America than truth freedom and the pursuit of justice and happiness

Each and every day your honor that Robert Martin walks free with New Jersey and now the federal court and governments permission to terrorize my wifes estate truth value life work evidence and Rico case against them our children and our family is another day I Siabella and Mikailin Kenworthy are kept P.O.W's fully illegally 4th seized treated fully as owned property detained in hell against all constitutional rights human rights and rules of engagements of war by domestic enemies in a police state cage with sanctioned approved terrorism acts of violence against certain families discriminatorily for ongoing criminal abatement of prosecution that our current administrative regime and clan/gang members are perfectly complicit participants comfortable allowing a for profit mechanism of civil human rights war crimes dehumanizing degradation contortion and perversion of human rights asylum rights and gears changing shifts in policy treasonous in nature and action for personal professional and financial gain all illegal acts of any governing parties individuals or government agencies and employees to go on their luxury vacations and membership exclusives at Trump golf □□ families groups resorts and insider criminal corporate investments as more illegal control is seized over our children's families future tomorrow's

So again I ask the federal court to immediately restore rule of law surrounding the federal civil rights violations crimes that ended my wife's life and is still attacking retaliation against our civil rights my children her kind exactly as Robert Martin threatened would be done along with others now Dcpp for his Lyndhurst police and their crimes if I didn't keep my mouth shut and drop pursuit of justice for Shayling Kenworthy and freedom and any resemblance of happiness for my children and I Dcpp for all guilty parties benefits and gain they will illegally cruelty neglect abuse my children and adopt them out to personal friends of Robert Martin and other parties to the crimes committed and suites in general all can and will be fully illustrated in time especially given restoration of my families civil rights being denied □♂□ for protection of crimes atrocities committed as more than apparent needing to be clearly convinced they are all recorded committing these crimes needing full prosecution once the corruption keeping rule of law in New Jersey from being restored begins to be dealt with I'm sure the obvious evidence will then be seen by those ignoring threats murder and ongoing harm crimes atrocities committed so police officers can get away with murder terrorist threats Rico organization and follow illegal follow thru of every and all threats as fully illustrated on court documents and records ie false arrest charges dropped as no crimes were committed just Roberts threats needing to be exacted to intimidate our family then after Shaylings murder Dcpp still did not turn the aim on who threatened our family taking Shayling Kenworthy from us her our children needing true real protection from thugs and a crime Criminal enterprise instead follow thru by Dcpp and courts to try falsely to remove our children again exactly how Robert Martin Lyndhurst police housing authority retaliation and threats promised we will deal with if we tell the truth share recorded evidence against guilty parties again taking my family children our given freedom and liberties away again falsely upon criminal behavior threats

and orchestration to intimidate control and silence truth during federal proceedings that again resulted in dissolution of the illegal criminal activity by Dcpp being told again they can not open a case take my kids as tried failed with Sharon Dwyer Dcpp and her their willing participation of police officers mutual friends wyth badges of Robert Martin abd other guilty Lyndhurst police officers Both threats of Roberts exacted just like killing and putting us into the grave both false utilizing the courts to Robert and criminals illegal whim for amusement and control for a compliance my rights allow a freedom and voice they denied ..

Let me also make this loud and clear there is no qualified immunity for any parties in this case as clearly beyond any clear and convincing evidence again passing that threshold of proof burden being crimes by police officers in orchestration with Robert Martins threats and all parties including Dcpp who like Richard Anderson texts illustrate give them my cell number I might even know them I'll handle it I'll tell them your onboard living here they can go away Ie beginning moving in complying keeping mouths shut about the housing authority and crimes being committed there both against us and other arrests being made of housing authority family members engaged in illegal criminal enterprises selling/distribution of DEA federally controlled substances to young adults and children steroids and heroine at a local Highschool which a Reprter Paul Nichols retired Navy being supplied information at the time was digging past just the obvious full view crimes being allowed he was looking into how many envelopes and local judges and politicians were not just benefactors but customers along with their families and children some of which who have overdosed on exactly the drugs being supplied to Bergen country by and in state government cars and plates making it that much easier to freely run illegal enterprises He was also since uncovering so many secrets such as these that could be used as black mail who allowed etc for how long etc into the grand jury selection and process of the multiple Fireman's government spouses and employees that ended up on a grand jury exonerating multiple times Lyndhurst officers who riddled a man that supposedly ran into the library for witnesses unfortunately he found more racist town workers who threatened him and backed up the officers in court that his supposed pocket knife warranted not 1 shot to the leg or a taser nope close to 30 Bullets 12 of those in the back I believe ... Paul Nicole died a mysterious death right after releasing the first few reports in this wave of evidence he was set to release including some of those who found with direct links ie golds gym being used to distribute their DEA controlled substances along wyth deals handoffs right out of the state cars Richard Bitteto was provided by other willing aware participants of this criminal enterprise As Robert Moore stated Ie public information not disparaging abd again its illegal to gag anyone to not report the crimes atrocities committed against anyone for financial gain ... play ball we get away with anything abd everything we are in control these are our houses cages and our fucking money not animals who don't belong ... get on board and skys the limit yet no arrests just bodies piling up ...

Might I add your honors thank god a website like Robert batys is not up providing your home address locations of where you rest your head feeling safe at night knowing that it's your little piece of American freedom to breath feel that quality time with family ... Lie spread misinformation like your husband or wife is a known child rapist grooming your children to be their next spic sexslave But hey good thing that type of hey here's where someone whos aiding and abetting terroristic threats sale of dea controlled substances to minors out of state cars murder illegal arrests Kinda like a gang member saying do or else we will kidnap your children now knowing your addresses they know exactly where they go to school what playgrounds karate □ clubs and moments out of your sight Ie still hypothetical for full understanding and relatability they illegally since a gang kidnap your children □ since gangs are not yet able to fully do as your gang members are all allowed and state to you all with your children hostages tell the actual truth and restore rule of law ending this ongoing war on humanity from behind the illegal regime gangs now as mafia blue wall police brutality crimes atrocities committed with full help and compliance to of from those enjoying their lifestyles willingly ignoring crimes atrocities against humanity children families that some how keep going ignored making us all guilty completely complicit and please allow since not harmful retaliation illegal cyber crimes stalking bullying harassment defamation hate crimes including threats of bodily harm false detainment and death. As if this was fully legal including the newly released Robert Baty federal judges and criminal defendants addresses up complete with pictures of their families children since not again your honors detrimental irreparable harm and your children would all appreciate in school and their careers and life to see their pic up with their dad a family picture stating your honors spouse wishes to penetrate or violate their own child and is grooming them for such please continue allowing these medically state licensed menatql health professionals to do the good work with Robert Baty and friends previous and current government employees Dcpp hospital board members \$\$\$ personal friends of Robert Martin and officers hagerty and Riena murderers families such as these to keep call Shayling Kenworthy a spic foreign sex slave drug addict that her family can replace with the foreign sex slaves being war crime for profit much like how Dcpp operates illegally detained as for Shays murder we deserved it since we are lower less human pieces of trash not deserving our constitutional rights that your honors don't seem to see being violated nor will help restore causing rise to question and state the contempt again for judges who help destroy our constitutional rights constitution in general so their children can enjoy the protection of uncle Bobby's of the world who's gonna keep spics niggers abd trash like us far away from your princes and princesses while you enjoy the now legal drugs double dipping profits and those still illegal as it's a free for all when you play ball .... Wish I just played ball my spic piece of trash would be alive and well just caged in her place where you all asked us to remain silent for continued destruction of all morality law decency human rights and any tomorrow free from having to choke lives out for silence to keep getting away with crimes against humanity being thugs in reality rather than reenforcing law strength integrity freedom pursuit of happiness tomorrow together no more having to lie and cover up who people actually are what crimes they are being allowed and actually build a land of opportunities free from deprivation from our masters on their plantation as beyond clearly illustrated in and with

Subject: Motions family mediation request/adjournment

Motion request for mediation as since Cheryl Rose is in California in lieu of hopeful resolution as my family is wanting to purchase the home as offered and recorded by Cheryl Rose should we not be able to mediate I would like to request Cheryl Rose be present for proceedings in New Jersey as there is over 100 hours of recorded evidence all being transcribed and Adam Tuttle who would not represent her and allow help her to break the law needing to called as well ...

Helping ??  
Fishy  
Right ??

Same body as other different kinda motion request up top heading  
Please if you would your honor if the clerk could inform us when we check or via a call  
347-549-0020  
Best regards  
Lee Kenworthy  
Samantha Brown

Motion request of your honor for an adjournment until early next week for first hearing date as this will drag so that a full retainer can be earned paid to attorney

Etc

It must also be stated that when I lee Kenworthy and Samantha brown moved in our rent was 1000 and was to be no more with Cheryl Roses full awareness and it was never agreed upon that Samantha and I lee Kenworthy would ever be responsible for the full amount until a legally binding lease contract was out into place mitigating anyone from stealing money or rent from us and removing all parties I didn't want if and when upon signing a lease so my children's return was to a familiar safe place entire home which could also accommodate my immigrated Dominican also actually a bit activists Jose at least disabled inlaws who I will be fully responsible for as Shaying and I always planned on

Also your honor as stated early next week any day after Monday if you would could be so gracious for the 1st of many proceedings days before the court as the truth of this situation recorded evidence submitted will be is getting fully transcribed hence my second true adjournment request for my our false perjured accuser to be present In New Jersey in court so there are absolutely no issues or games with facing our plaintiff accuser especially given fraud with intent theft by deception offering to sell the house and ask me to do work into the 5k Mark on her home offered a lease and dangled every thing all year leaving us without a fully functioning bathroom and shower in the rental unit house all while my family children wife's estate are being attacked with heather Christiansons help supplying false information to a cyber attacking harassment slander group as I'm being deliberately Robbed by Cheryl's actual lease holder all while asking for civility and contracts to be put in place with Cheryl roses lawyer Adam Tuttle who will also need to be made available for testimony so as you can see your honor with such obvious integrity issues and housing discrimination this is a request I would expect your honor truly sees all reasons to possibly even adjourn until Cheryl rose makes arrangements for travel providing dates or calls off her blatant harassment fraud housing discrimination and civilly legally resolves this without the threat of homelessness and further discrimination retaliation and destabilization of my family

It should also be noted that a federal housing discrimination case has been filed against heather Christianson Cheryl rose and a few parties I'm hoping Cheryl isn't directly connected to as well in the retaliation discrimination destabilization slander misinformation lies but her offer of a sale and allllll continued games and actions I look forward to facing Cheryl Rose in both venues federally and here

U.S. DISTRICT COURT

to fully get on record her explanations to utilize in federal court along with the I dint like you recorded fully illustrating discrimination and please more lies as she will be dealing fully with her voice transcribed telling me I can buy the house for her price and then playing games for what purpose and intent those answers I await as we are legally allowed to face our accuser for full explanation and resolution as I'm truly seeking one and to purchase her home as both my children want and decided and if she doesn't discriminate against my mixed children family our cultures political beliefs and activism or how Shayling was killed and by who we would love to purchase her home with love not this hate and can show the courts lawyers our ability to fully purchase mortgage etc her home should we be allowed again not discriminated any longer by all participating parties trying to rip my family image and the truth apart

Given your honor this week a Federal protective order ending the illegal activity and separation degradation retaliation of my family witness tampering war crimes against Siabella Mikailin Kenworthy Jose Nelly Sang Shaylings parents our entire country each day this continued will be absolutely issued it's with this and as I've been asking all along purchasing renting whatever Cheryl will put in writing and please for the love of humanity decency integrity can it please be done immediately and a working shower in the rental be provided as we've been fully without one since March 13th 2019

I would ask that we try given Cheryl Roses being in California a mediation session wherein the court Cheryl also made to understand what she's doing is not legal ethical and she lied to her new lawyer Adam Tittle advised Cheryl to do what she has been promising and treat my family civil

The rent can be paid especially if we could please have a lease in writing but honestly given the recorded offer of sale to my family I'd really love mediation to see what Cheryl wants to do both knowing my children and in-laws are coming home safety is being provided to us I'm sure as I've seen many faces from them all she may be ready to sell it again and we will be pals as has been the lovely pattern ....

I want to get up your get my kids ready for school feed them breakfast drop them off at school go to work live our lives and begin to finally grieve each and everyone of you with a Bench and badge and law degree finally saying absolutely no this family deserves as does everyone of us truth justice

And may Shayling Kenworthy finally Rest In Peace and power free her children family free truth crimes never fucking again in our country this has been disgusting honestly your honor and I we just want desperately resolution

Thank you very much and I Lee Kenworthy my children Siabella and Mikailin Kenworthy who will definitely be looking forward to meeting you and letting you know they want to buy Cheryl's house for their family Shaylings parents Jose Nelly themselves and they can actually duly fully afford it themselves as I've given them reign of their mothers their ssi

It was an absolute honor helping watching every decision my children Siabella and Mikailin made with their money our excess when I earned good they sacrificed birthdays to help families

Shayling Kenworthy was beyond amazing. The best parent I've ever seen honestly patient I mean hell everyone loves or hates me ... Thank you your honor for you time and approval of requests if we could please resolve this I'm hoping to honestly with integrity

Re Protective Order  
Standards & Approval to be met

2:18-cv-12822

Intent to meet standards of deficit submitted rather as well illustrate it has been submitted just actually missed or cross cases my apologies your honors fir some systematic statements contained within my arguments being both a writer and philosopher Shayling made law invigorating the arguments all of which if I must with my children family home I'll both I'm sure as my attorney is still being awaited research to introduce all corresponding cases abd codes as pro S.E. I'm not equipped with 3 people paralegal law libraries full access etc and after the year we've had stabilized breath would be excellent your honors  
I humbly thank you ☐

Let this act as a note request/disregard appeal as I have noticed some of the wordings of what your honor requested via standards humbly might I state with everything that has been entered I hope you understand certain arguments and how I needed to illustrate them making them relative and indicative personal to your honors own life and experiences via relation of asking not just giving your heart but take a walk in my family's shoes for a moment. With these things said I hope your honor understands and can appreciate my contempt for court and frustration with how many games have been played by countless professionals my family and I and my children have been counting on to help us get justice suffering more unlawful illegal heartless cruelty justice that I should have just exacted myself legally which I'm going to fully legally illustrate to the court if I have not already my capability to do such.

As to irreparable harm when affidavits of such and attestments as well as underlying claims those have been submitted within the vast amount of paperwork that I have submitted I will be getting fresh new copies from Phil Linfante Mike Darcangelo and Taja Conover amongst a few others and will have them to your honors within the next few days

I will re-enter or rather I should state correctly illustrate the deficiencies in documentation Ie affidavits attesting to immediate irreparable harm psychologically damaging to our family unit core and my minors Siabella and Mikailin already carrying the loss of Shayling Kenworthy their mother hero and the immediate need for them not to suffer another day in anguish as the defendants crimes committed against our family goes unabated not prosecuted nor one single apology acknowledging a guilt that's recorded and beyond out of hand ...

All levels of my protection order will fully your honors be met including an attorneys veracity expertise and a few key illustrations of underlying claims being met surpassing as to certain statements that will be made your honor

Thank you again for your time and fully reading thru listening transcripts it's much appreciated your honors ...
