Mind if I come over to shoot? Not gonna do much. Really just want to zero my new sights

SMS Message received from Steve 11/7/2019 2:15:33 PM

S

I dont mind. I gotta stay in with Gracie tho because of her wound and its rainy out but you are welcome to come over for a bit..we will show you were to shoot when you get here. Some basic cover back there i guess.

What saltwater equipment do you have? Like what size tank can we get?

SMS Message received from Steve 11/8/2019 9:48:26 AM

S

Well dont base anything you do off of me or what I may or may not donate please. I do not want to feel obligated at any point to do something or give something. If the time comes and I see it can be used and I feel moved to give it I will. That's not to say I wont but just dont build or do a project relying on me for anything please brother. I am stretched thin and no guarantee I will be here tomorrow.

Side note. The stuff I am talking about is for a reef and doesnt get used on tanks that will have non reef safe fish in it. It would be a waste.

SMS Message sent 11/8/2019 9:48:58 AM

SMS Message received from Steve 11/12/2019 5:44:23 PM

S

Ok. I'll head that way shortly

11/25/2019

SMS Message sent 11/25/2019 7:25:39 PM

I never implied that you tampered with the cameras. Just that it seems odd that the 3 incidents I am aware of when we could have benefited from the footage it was not available due to tampering. I have my suspicion of who may be responsible, but I do not want to accuse anyone without actual knowledge. Yes, I was bummed out when we lost access to WiFi, but as I told you before, I'm past that, and have no ill will towards you for it. As I've told you, I appreciate the work you do, and recognize that you are an integral part of this ministry, which I fully support. If that message was not intended for me, I apologize for taking it as such. We are a team, and more importantly, a family in Christ, and whatever I can do to maintain unity, I'm all for it.

SMS Message received from Steve 11/25/2019 7:52:38 PM

S

I dont know who this is and I dont care really. I dont know who was talking about it either. I just heard a small part of a conversation as I was doing something which is why I sent a mass text because I am sure it will spread.

Furthermore this is the first time I am aware of any camera tampering. I dont know what your talking about 3 times.

I dont just do whatever I want either so losing wifi was not my decision either. I am following orders always. The only place I use my own discretion is when it comes to online stuff or filming. It is not my place to say who or who doesnt get internet. That came from Ernie. That's why doc always has me repeat it in meetings.

I am not mad or holding a grudge. I just wanted to clear the air. If I had the ability, everyone would have whatever they wanted but it is not my ministry.

To sum up, I am responsible for some pretty serious and important stuff that almost 99% of DAL people (including Cindi) never ever know about, so I take my job seriously. Again I am not mad or upset. It just is what it is.

SMS Message sent 11/25/2019 8:01:53 PM

Ok, this is Mark. I was talking to Tim about his car being taken, and made the comment that it was odd that every time we need footage, it is mysteriously unavailable. I assumed that's what you heard by the nature of your group message, but again, I was not talking about you being responsible. I don't know if that's what you heard or not, but just wanted you to know that I wasn't insinuating that it was you. I'm on your side because I know you are an important part of this ministry which is my life as well. I hope any discord can and will be squashed, and will do my part to bring that to an end, if there's anything I can do.

SMS Message received from Steve 11/25/2019 8:16:03 PM

S

Right on. Like I said I am not mad. Just I am the last one who would sabotage anything there. If I had the footage I would have given it to him. I could have showed him if he asked. Those cameras are mostly for show. Yes they work but very badly and it is what it is. I actually just got an estimate for a real camera system that is not wireless or need internet. We run on shoestring budget and I am not forking over 6k for the new camera system because I dont live there. So until that time we are stuck with crappy camera setups. They work great if you want to sit there and watch it all day but to look something up is horrible. Timmy's just mad because it is him that needs the footage most of the time. We are all good brother.

SMS Message sent 11/25/2019 8:18:43 PM

Agreed. All good. Goodnight and God bless.

Lol, what move. I have went from the youtube room to a house in brewton back to staying where I am at. I am like a bubble in the wind. They can fight and argue and i will do whatever God asks. So if they want me to move ill move but as of now I am stay here thru the end of July for sure.

SMS Message sent 6/17/2020 7:59:00 PM

Doc made what will probably be considered a racist joke about protestors tonight on video. I think it was a Kermit the frog meme. Might want to cut it. You'll know it when you see it and probably have a better idea of what will and won't fly with YouTube community standards.

12/16/2020

SMS Message sent 12/16/2020 7:24:44 AM

I studied up on the drone last night and am confident in my ability to use it but I really don't want to get it out in this wet. Might not be able to get footage by tomorrow but I'll try if it clears up.

SMS Message received from Steve 12/16/2020 7:31:07 AM

S

Ok ty. Ya rain will ruin it but it is a beast in high winds. You can trace a map around camp and send it up and it will run the course you set. So you can use it for auto survey of the property. It does a ton of stuff

SMS Message sent 12/16/2020 7:31:32 AM

Yeah it's an impressive tool no doubt

SMS Message received from Steve 12/16/2020 8:22:36 AM

S

I just sent this to doc. So everyone's on the same page.

Fwd:Just FYI, Mark has my big awesome Drone. I am giving that to you to keep at camp so you can do whatever you need. I would suggest that He should keep a hold of it as he will keep it safe and he knows how to use it.

SMS Message received from Steve 12/17/2020 2:53:11 PM

S

I will clear that card when I get there. I know it has a size limit so let me know and I'll get you more

SMS Message sent 12/17/2020 3:08:10 PM

Ok. I think the limit is 250. I'd have to confirm that, but I think that's what I read

SMS Message received from Steve 12/17/2020 3:08:50 PM

S

I thought it was smaller than that. Like 128 or 64 even.

SMS Message sent 12/17/2020 3:17:05 PM

I'll double check.

SMS Message sent 12/17/2020 5:24:21 PM

12/18/2020

SMS Message received from Steve 12/18/2020 9:11:27 AM

S

Hey brother. I was asked to clarify something again, I don't know why..

Yes the drone belongs to camp but You are in charge of it and nobody else is allowed to fly it unless Mark says it is OK. He should keep it and maintain it because it is expensive and fragil.

SMS Message sent 12/18/2020 9:12:06 AM

SMS Message received from Steve 12/24/2020 11:33:20 AM

S

I will bring them to you in the next day or two. The motion sensors work at a quarter mile so you should be able to setup the base unit in your cabin now and it will alert you if there is motion back there.

The camera on the typhoon is acting wonky. The video is not appearing on the ground station. The gimbals are still responding just no image. Everything else is working fine as well. I flew it once with the new sd card but it didn't register it. After that flight is when it stopped transmitting video. No crashes or even rough landings. I'm at a loss.

SMS Message received from Steve 12/26/2020 9:33:41 AM

Hmmm. Well I guess just do whatever with it. It is no longer under warranty.

SMS Message sent 1/7/2021 4:08:07 PM

Ok. Thanks for letting me know. Doc has been pushing me hard to move out of cabin 5 and back into the RV despite originally telling me I could stay in cabin 5 till my new cabin was ready. Did you find a house or did cindi back down from the eviction?

SMS Message received from Steve 1/7/2021 4:09:50 PM

Ty bro. It's nuts but I think it's not going to work. I will pray it does because we are done if Biden is really going to be our president. I look for us to be silenced on YouTube any day now. The people I watch are being suspended. All videos from multiple channels this week taken down

SMS Message sent 1/8/2021 9:21:20 PM

Yeah they're really pulling some Orwellian crap. And this is just the beginning. Twitter and fb have suspended trumps accounts and their explanation is absurd. They said it's because of how people are receiving his messages despite no calls for violence whatsoever

SMS Message received from Steve 1/8/2021 9:24:04 PM

Oh yeah. I use Parler and now apple is threatening to ban the app if they don't ban him but for now he uses parler so you can follow him there

SMS Message sent 1/8/2021 9:25:13 PM

I just downloaded it a couple hours ago. I heard apple gave them a 24 hour warning then they're taking it off their store.

SMS Message received from Steve 1/8/2021 9:25:14 PM

S

Parler is conservative social media and they are threatening to take it down entirely

SMS Message received from Steve 1/8/2021 9:27:22 PM

S

Yeah. I guess people who use apple can go to the website and pin it to the home screen and it will make an app. I read that on parler. That's how infowars gets around it. But I hear the government is going after them to be shut down. They just don't want us to have a voice anywhere

SMS Message sent 1/8/2021 9:29:08 PM

They keep this up and they'll get something a lot louder than voices. Real Americans won't tolerate being silenced.

I hear that brothed. Lazlo sent me the text about your going on batys channel and we just disnt know why you would do that because batys only goal is to destroy Kent and his ministry

SMS Message received from Steve 2/15/2021 3:33:00 PM

S

I told doc I could not see you trying to destroy this place even though you left over differences I just didn't see that you would be the type to have an agenda to try and harm this ministry

I haven't spoken a word to Baty. He gets people to screenshot even on private groups. He's a creep and I avoid him as much as I can.
